PROFESSIONAL SUMMARY

Aspiring Full Stack and Machine Learning Engineer pursuing a B.E. in Computer Science and Engineering. Skilled in Python, Django, modern full-stack technologies, machine learning frameworks, and SQL, with experience building scalable, data-driven, AI-powered applications. Capable of end-to-end development and integration of intelligent models into real-world systems. Also exploring Data Science, Generative AI, MLOps, cloud computing, and DevOps to build scalable, future-ready solutions.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering	2023-Present
Sri Shakthi Institute of Engineering and Technology (SIET), Coimbatore	CGPA: 7.8*
Higher Secondary Education (XII)	2022 - 2023
PMG Matriculation Higher Secondary School, Coimbatore	Percentage: 70.00%
Secondary School Education (X)	2020 - 2021
PMG Matriculation Higher Secondary School, Coimbatore	Percentage: 100.00%

TECHNICAL SKILLS

- Core Python
- Django
- React.js
- MySQL
- SQLite
- Prompt Engineering
- PHP
- AWS
- Flask

AREA OF INTEREST

- Python Fullstack Development
- Machine Learning, Data Science, Gen AI
- Cloud Computing & DevOps

PROJECTS DONE

1. AI WEATHER FORECASTING SYSTEM (DEPLOYED)

Tech: Django, React.js, SQLite, ML Frameworks

- Designed an AI-based simulation module to perform what-if analysis by adjusting weather parameters such as humidity, wind speed, and pressure.
- Achieved 85–90% accuracy using ensemble learning (Random Forest, Linear Regression, LSTM) for reliable forecasting.

2. ROAMIQ-TOURIST GUIDE (AI WEB APPLICATION)

Tech: React.js, Flask, SQLite, ML Frameworks, NLP

- Built an AI-powered travel assistant that provides personalized trip plans and smart destination recommendations using ML & NLP.
- Engineered a secure, local SQLite database solution for persistent data storage.

ADDITIONAL INFORMATION

Internship Experience

- **Full Stack Development Internship (Prodigy InfoTech)** (Dec 2025 – Jan 2026): Worked on frontend and backend development.
- **Full Stack Development Internship (Code Alpha)** (Oct 2025): Focused on Python/Django API development and modular architecture design.
- **Python Development Internship (OWL AI)** (Feb 2026): Focused on Python/Flask/Streamlit/Tkinter and API based projects development and modular architecture design.
- **UI/UX Design Internship (Artifai Tech)** (Jul 2025): Specialized in responsive design and high-fidelity prototyping using modern tools.

Certifications

- **NPTEL-Python for Data Science (Elite Certificate), IIT Madras** (4 Weeks) (Jan–Feb 2025): Covered core Python libraries (Pandas, NumPy, Scikit-learn) and data manipulation techniques.
- **Full Stack Development with Python (Xplore IT Corp, Coimbatore)** (31 Weeks) (Nov 2024 – Jun 2025): Intensive training on Django, SQL integration, and modern web application development.

Hackathon Participation

- **Smart India Hackathon (SIH 2025 & 2024) (Coimbatore)**: Prototyped digital solutions under competitive constraints and utilized Java Spring Boot for backend architecture.
- **TRUTH TELL HACKATHON 2024**: Focused on rapid development and critical problem validation, demonstrating proficiency in Python and web technologies.
- **Web 3 Hackathon 2025 (Unstop)**: Gained hands-on experience in decentralized application (dApp) development and blockchain technologies.

Languages Known

- Tamil (Native), English (Fluent), Malayalam (Speak & Understand), Hindi (Read & Write)
